

WHALE BEACH

Chef struck by meeting with rock idol

BRIAN Johnson is best known for belting out AC/DC classics. But the lead singer is also a connoisseur of the finer things in life.

Johnson and his wife paid a flying visit to up-market Jonah's, arriving by sea-plane. It was the couple's first visit to the Whale Beach boutique hotel and they were clearly impressed.

The lunch date also made a big impression on executive chef Logan Campbell. The AC/DC fan was snapped on the terrace with his hero. He said his favourite song was *Thunderstruck*.

Cooking for rock 'n' roll royalty is part of Mr Campbell's job. This year, he has cooked for the band Queen and singer Ronan Keating. Jonah's recent guest list has included Bono, Justin Bieber and One Direction.
